The men from this list who will be called here for entrainment will be notified at their last known address. If a registrant does not notify the Board of change in address the burden falls on the registrant if he fails to report when called.

Any man mentioned in the above list who is actively engaged in farming, can secure exemption for the time being by making affidavit to that effect. Write the local board for necessary blank form.

Switzerland this year cancelled the sale of tickets good for unlimited travel on the railroads of that country.

VOLUNTEERS WANTED.

The local board has received a call for a few men to enter the University of Virginia for special training along mechanical lines. The circular sent out by the Provost Marshall says:

"The men cleared for this service will receive two months course of training at Government expense, fitting them to serve in army positions requiring knowledge of automobile driving and repairing, and other mechanical duties incident to many kinds of military service, both, both, at the front and behind the lines. The men taking this course will receive thorough instruction which will be of great personal value in working their way ahead, both, in the army and in civil life. This is an exceptional opportunity for energetic ambitious men.

The volunteer period for enlistment in this service will close on May 15. Further information may be had by consulting Mr. Britts, of the local board.

TRACTORS FOR VIRGINIA FARMERS.

The State Council of Defense has affected an arrangement with Ford and Son of Dearborn, Mich., that will enable our Virginia farmers to save hard labor and increase acreage this year in food production. By agreement Ford and Son will ship to this State 200 tractors, through the Universal Motor Company, of Richmond, to be distributed under the supervision of the State Commissioner of Agriculture. No commission or profit will be charged by any one. Shipments will be made in carload lots, (about seven tractors making a carload) from the factory to different sections of the State, the object being to demonstrate to as many farmers as possible this method of saving labor and increasing production. The Universal Motor Company will sell to those farmers desiring to purchase a tractor and show them how to operate it. This is a war measure and those who purchase tractors are expected to keep them in use after doing their own work by plowing for neighbors as much as possible. The assignment of 200 was all that could be secured for this State and these tractors will be delivered before June 15th. Farmers desiring to purchase should make immediate application to the Universal Motor Company, Richmond, Va.

These tractors will turn two fourteen inch furrows in the stiffest soil, using two and one-half gallons of kerosene oil per acre. With ten hours constant running the tractor is claimed to plow eight acres under favorable conditions of soil. It develops 22-horsepower and can be used to pull trucks on the highway and farm and to furnish power on the farm for all kinds of machinery, wheat threshing, cutting ensilage, running wheat harvester, harrowing, and rolling land. The weight of the tractor is 2700 lbs. A carload or more will be delivered to Richmond within the next few days.

GRAHAM BOY WRITES OF SUBMARINE SINKINGS.

Graham Daily News: An exciting battle with German U-boats was the experience of John Newman, Graham boy, who recently went to France. A letter received yesterday by the soldier's father gave an interesting account of the voyage and told how the American destroyers had sunk three German submarines in a big battle that took place in mid-ocean. "Believe me, they won't bother anybody else," wrote Sergeant Newman, in describing the encounter with undersea boats. The letter, of course, had been censored and bore the stamp of the censor's office.

Sergeant Newman told of the rough sea and how many of the soldiers became sick on his transport. He speaks highly of the French people, and mentions the beautiful French girls, predicting that many American soldiers will elect to remain in Europe after the war is over, for, he says, it will be hard to resist falling in love with the country over there along with the beautiful maidens. The letter is dated "Somewhere in France, April 8, 1918." Sergeant Newman has a brother, Ted, with the American Expeditionary forces in France, but the brothers had not met when the letter was written and neither appeared to know of the other's whereabouts. Sergeant Newman wrote that a Carbaugh boy from Tazewell was his buddy. He is a brother of Dan Carbaugh.

The Carbaugh boy spoken of above is a son, Lewis, of W. H. Carbaugh, on Clinch.

CATTLE FOR SALE.

I have near Doran on pasture about 60 head of cattle, mixed breeds, all ages and both sexes, which I will sell at any time, in any number to suit purchaser. Look these cattle over, and write me what you want.

AMERICAN RED CROSS DRIVE WILL START ON MAY 20 FOR SEVEN DAYS

Our Message to Kiser Wilhelm

To the People of Tazewell County:

The week of May 20th to 27th has been set apart as "Red Cross Week," when the people of the United States will be asked to contribute at least one hundred million dollars to the American Red Cross, to be used in relief work in this great war, and for the relief and comfort of American soldiers in France.

The quota of the sum for Tazewell County is \$5,200. That we will contribute our quota during that week goes without saying, for every patriotic citizen will not only subscribe his part, but he will be glad of the privilege of subscribing, and thus assisting in the relief and comfort of our brave boys who are staking their all in this great war for the defense of our homes and our families. Let us not regard such a contribution as a sacrifice, but let us look on it as a privilege to be thus permitted to do this service.

Hundreds and hundreds of noble men and women of America are giving their whole time to Red Cross relief work without one cent of compensation, and in many instances are paying their own living expenses. The executive head of the American Red Cross is Henry P. Davidson, of New York City. He was the executive head of one of the largest banking establishments in the city of New York and I have heard that his salary as such was \$50,000.00 per annum. He resigned this position to take charge of Red Cross work, to which his whole time and ability are given, and without any salary or pay whatever.

What are you, citizens of Tazewell, giving to this great work? The American Red Cross is the relief agency recognized by the government and works in connection with the Army and Navy. Before this war the membership was approximately 200,000; now it is more than 2,000,000, and is growing every day. Are you a member of the organization in Tazewell county, and standing with this great army in support of our soldiers at the front? If you are not, you want to join at once. You can't afford not to do it!

It would be impossible, in the limit of this article, to give any adequate account of Red Cross Work. It is of such enormous dimensions that it could not be done, but we know that it is the greatest relief work that has ever done in the history of the world. The American Red Cross recognizes that our first duty for humanity in this war is the protection of our soldiers in France, and therefore it begins at the point of landing in France by the establishment of rest stations for our soldiers. These rest stations extend inland towards the camps, and are located in a series of junction points and railroad stations. They include infirmaries fully equipped; rest and reading rooms; dormitories holding from 40 to 200 beds with shower baths and disinfectors, and restaurants capable, in some cases, of giving refreshments to a thousand men an hour. Here our men have properly prepared food and the welcome of American men and women. For the relief of soldiers on duty Red Cross Relief work consists in operating rolling canteens and maintaining stationary canteens back of the fighting line. These rolling canteens go right to the communicating trenches where soldiers passing in and out receive hot coffee in winter and cold drinks in summer.

At the stationary canteens at the junction points of railroads there are perhaps 20,000 men passing each day. Formerly these men had to sleep in the open, often in the rain. They came from the fighting zone, tired, hungry, infected. At the canteen men can obtain substantial hot meals, at cost, prepared by American women; can have hot baths and can have their clothes cleansed and sterilized and take the train refreshed in body and spirit.

The chief work of the American Red Cross in helping care for wounded soldiers lies in supplying sufficient nursing service and in furnishing materials for hospitals. On the 1st of March, 1918, more than 2300 American Red Cross nurses were employed in Base hospitals in France and in the French Military Hospitals. The total number of hospitals in France exceeds five thousand, and more than half of these are receiving part or all of their medical and surgical supplies from the American Red Cross.

In the United States the Red Cross has established canteen service at more than 500 important railway stations, and at a number of these maintains a Red Cross Motor service to transfer sick or injured soldiers from the trains to local hospitals. Red Cross ware houses are maintained at more than twenty-five military bases, and from these are distributed to the soldiers sweaters, helmets, mufflers, and

The County's allotment was \$260,300.00.

Amount subscribed, \$361,100.00.

Oversubscribed, \$100,800.00.

The county's subscriptions are as follows:

Tazewell, \$159,500.00.

Graham, \$1,750.00.

Richlands, \$36,850.00.

Pocahontas, \$112,000.00.

Tazewell's second liberty loan allotment was \$453,040. The amount

subscribed, \$625,350.00, which was \$272,310 over the top.

The figures for the first loan are not available.

The second and third loans subscribed by the county amounts to \$886,450.00. "And there is more still," says one, "where this came from."

socks, kils, etc.

The output of surgical dressings alone for use abroad now amounts, according to conservative estimates, to more than 100,000,000 a year. More than fifty-five Ambulance companies have been organized by Red Cross Chapters at an approximate cost of \$35,000.00 each. There are today in France 5,000 children under the medical care of the American Red Cross, and more than 20,000 are aided by the Red Cross directly or indirectly. The homeless civilian population of France and Belgium are being cared for by the Red Cross.

This great relief work is being done in England, in France, in Italy, in Belgium, in Roumania, in Serbia, in Russia, in Palestine and Syria. The above is only a part of the great work that is being done. But I must not forget to state that the Red Cross has perfected plans to care for the American prisoners who may be captured and held in German prisons, and has arranged to send to each American prisoner every two weeks ten pound food packages of meat, butter, sugar, etc., and also clothing, necessary for his comfort.

If this is only a part of the great work that is being done by the American Red Cross, the surprise is that they are not now asking for more than a hundred million dollars from the people. We want to help in this great work, and when we remember that we now have a number of Tazewell boys in France, and many more to follow, Tazewell County people will not hesitate to subscribe our part of this money, when we know that a part of it at least will add to the comfort of our own boys.

I forget to state that every dollar subscribed will go to relief work. Not one cent is taken to pay any expenses or overhead charges; these expenses are to be paid by the chapters out of membership fees.

Don't forget the time: May 20 to 27, and if a canvasser should fail to see you, hunt him up so you can have part in this great work.

R. O. CROCKETT,
Chairman Red Cross War Fund.

J. W. CHAPMAN,
Tazewell Chairman Red Cross.

MRS. GEO. W. THOMPSON DEAD.

Mrs. Maggie, wife of George W. Thompson, died at her home near Gratton last Monday. The funeral and burial took place at Mt. Olivet on Wednesday, conducted by the pastor, Rev. W. C. Thompson.

Deceased was a daughter of Mr. and Mrs. Thomas Bourne, of Gratton, and was 47 years old. Besides a husband she leaves ten children—five sons and five daughters. The cause of her death was an intestinal cancer. She underwent an operation sometime ago in Bluefield which gave her only temporary relief.

Mrs. Thompson is said to have been a woman of splendid Christian character.

MRS. R. L. C. HUBBLE DEAD.

Mrs. Mary Hubble died at her home in Bluefield last Sunday night. The remains were buried here Wednesday morning. Besides a husband, Mrs. Hubble is survived by six children, one of whom, Mrs. Nannie McCoy, lives near North Tazewell.

She was about 61 years old.

The family moved from Tazewell to Bluefield about 12 years ago. Deceased was a good woman, a devoted wife and mother, and energetic and industrious to an unusual degree. She had been a sufferer for sometime from asthma, but her condition was not alarming at all.

It is stated, that feeling badly on Sunday night she took a dose of medicine, and her death occurred in a few moments afterwards, about 10 o'clock.

DAUGHTERS TO HOLD IMPORTANT MEETING.

The Daughters of the Confederacy will hold a meeting next Tuesday afternoon at 4 p. m., in the Reading rooms to make plans for a big celebration for the old veterans on memorial day. All members are urged to be present as this is an important meeting. Rev. J. Tyler Frazier will be here to speak.

COLORED SOLDIERS GO TO MICHIGAN.

The following colored soldiers trained here on last Thursday, evening for a camp in Michigan.

T. E. Warren, Lawrence Thompson, Lacy Peery, Jeff Jordan, Otis Butler, and Emory Bailey.

The speeches of the day were delivered by Mr. E. L. Greever and Rev. W. C. Thompson.

Each boy was presented with a Red Cross sweater and the usual box of sweets, etc.

The larger number which left the week before, were sent to Camp Lee.

HAVING A GOOD TIME IN FRANCE.

The two following letters recently were received by Mr. and Mrs. D. C. Lowe at Cedar Bluff from their son, Grant Lowe, who is with the Expeditionary forces in France:

April 9 1918.

My Dear Dad:

As I have a few minutes to spare will write you a few lines. I have just come back from feeding my horse and he is getting so he looks very good. We have a great time drilling on them. I was certainly glad I knew something about riding a horse. I met some of the boys the other day couldn't remember the first horse I rode. We use the McClellan saddles, and you know what they are. You ought to see us when we get our packs strapped on the saddle and also the saddle bags and a few more articles. But at that it beats walking. I'll always be glad because I am with this Company and in this branch of service. If you people back home knew all about it you wouldn't worry one bit. We do mostly patrol work and traffic duty. Of course we know what the sound of a gun is like, but we have grown accustomed to that. You would be surprised if you knew how quickly one can get accustomed to the surroundings.

I had a letter from Lawrence a day or two ago. He seems to be getting along fine. I am glad he is satisfied. I imagine Crockett will soon be over here.

John McCall and I are trying to arrange to see each other some way. I don't know whether we will be able to or not. You know we could be within a few miles of each other and never know it.

Dad, have you gotten my Insurance policy? If you haven't you can write to the Bureau of War Risk Insurance, Washington, D. C., and get it. I also had my allotment increased to \$20.00 per month, effective last February. Let me know when you begin to get that.

I must close now, and am enclosing another picture. I want one of them to be sure to get there.

With lots of love to all the family, I am, Your loving son,

GRANT.

Corporal Grant Lowe,

Co. B 117th T.H. and M. P.,

American Expeditionary Force,

April 9th, 1918.

Dr. W. E. Bundy, Indian, Va.

Dear Sir and Brother: I received your letter sometime ago, telling me of the steps the Lodge had taken in regard to dues of the men that are in the service of our good old U. S. A. I assure you it was appreciated by all the boys, especially the ones over here, and I think Bill and I are the only ones representing our Lodge in France. We have met Masons from practically all over the United States and I assure you you don't know how glad a fellow is to meet one of the "kind" over here.

Doc, we often think of the times we have had back in the States and talk of them a great deal. While I have never had the pleasure of being in the Lodge hall at home much, I look forward to the time when I can return and tell you all of the experiences we have had "over here." Of course we always look on the bright side and we don't think it will be long before we will be back with you.

We will always be glad because of the step we have taken and any man ought to be proud that he has the opportunity of doing something toward helping win the war. One can never realize what it means until he gets over here and sees for himself some of the things that this country has suffered. We must all be thankful to our Grand Master above that such things were spared our Sweet Land.

Now, you can rest assured that Bill and I are getting along fine and enjoying the best of health. Both of us are several pounds heavier than we were when we left the "Little City."

Please remember us to all the brethren of the Lodge and we would be glad to hear from any of them that can find time to write to us. You see letters are a great source of pleasure now and we enjoy getting them.

With the best wishes for the health and prosperity of all, I am,

Truly and affectionately,

GRANT LOWE.

THE REVIVAL CLOSERS AT THE CHRISTIAN CHURCH.

The two weeks revival meeting, conducted by Rev. Wm. Burleigh, the evangelist, and singer, Prof. F. H. Cappa, closed on last Sunday night with a large crowd and an enthusiastic service. As a result 45 additions by baptism were made to the church. Besides several additions to the Methodist church.

The evangelist left for their homes on Monday—Mr. Burleigh to Washington and Mr. Cappa to Louisville. Mr. Burleigh will return to the district for six months work as evangelist.

CEMETERY WORK THE PAST YEAR

Local Organization Elects Officers and Makes Report of the Activities of the Society. Financial Statement.

The Tazewell Cemetery Association held its annual meeting on Saturday, May 4th. The following officers were elected:

Mrs. Geo. W. St. Clair, President.

Mrs. Geo. McCall, Vice-President.

Mrs. Sallie Harrison, Secretary.

Mrs. W. I. Painter, Treasurer.

Board of Managers—Mrs. W. G. O'Brien, Mrs. C. W. Jones, Miss Jessie O'Keefe.

Board of Advisers—J. W. Chapman, A. St. Clair.

Agent—John S. Thompson.

After reading the Treasurer's report, a discussion of plans for the year followed. It was decided that aside from the care of the cemeteries no new work would be undertaken at the present. But, in order to meet the expense of the care of the grounds and some always necessary work, the Association will continue its rummage sales and will press with more than usual vigor the collection of membership dues.

Following is the annual financial statement:
